Student excellence

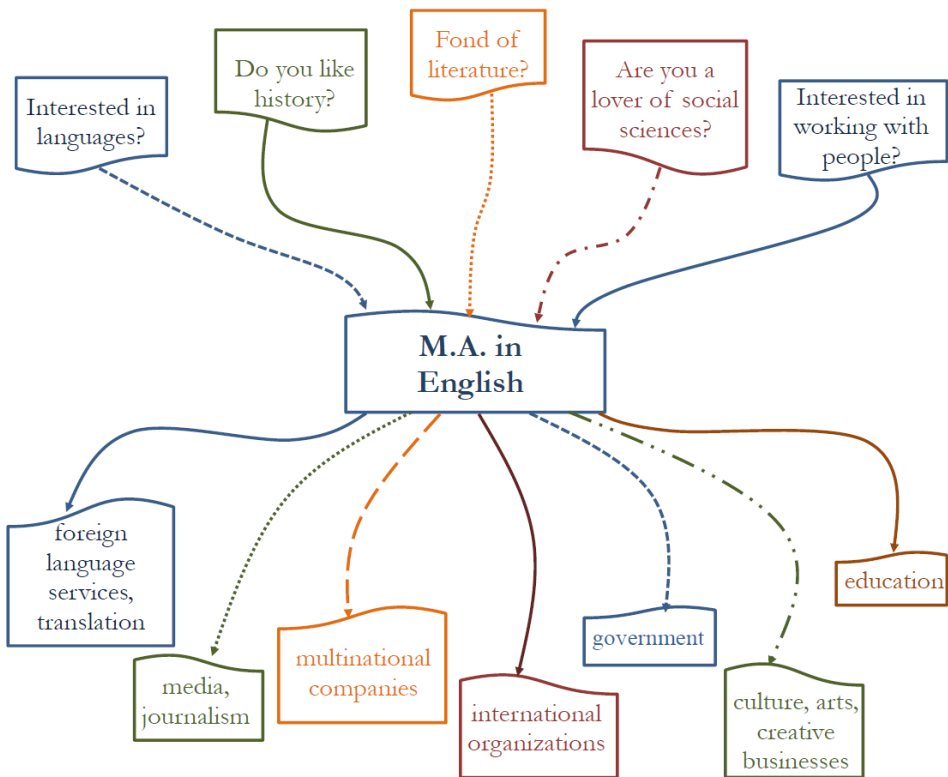

More than 85% of our graduates find a job in one of their fields within 3 months – they excel both in Hungary and abroad:

Lilla Magyar: on graduation at EASI she became a Phd student of ELTE university in Budapest, which was followed by her being awarded by a five-year grant of the PhD programme in Linguistics of MIT in Massachusetts, USA, one of the top ranking universities of the world. She defender her PhD in 2018. Lilla appreciated most the professionalism of her professors, the great atmosphere, and the unique student-faculty relations at EASI.

Krisztina Kosiba: after graduation at EASI she received a BA in business administration from Kainan University in Taiwan. In 2012, she was admitted to the Teaching English as a Second Language PhD programme at Tamkang University in Taiwan. What Krisztina found outstanding at EASI were the expertise of her professors, the language skills taught that granted her success in an international environment, and the help she received from her former school and professors after graduation.
